

Fabrum Composites UK is launched at UK's biggest composites Trade show in Birmingham this week.

Fabrum Composites is a hi-tech manufacturing and engineering company providing precision composite parts and assemblies to a range of industries. Founded in 2016, Fabrum Composites combines 20 years' of experience in the UK and European composite markets with the established credentials of the Fabrum Solutions Group. We specialise in complex engineering, offering our clients a complete composite manufacturing solution.
